The Committee believes that continuous enhancement of our internal control environment continues to be key to the Company's sustainability.

In 2024, the Committee will focus on the most important issues and potential risks within its responsibilities.

The Committee discussed with the external auditor (Grant Thornton) and the Finance Division the key audit matters during the audit of the Company's annual financial statements for the financial year ended 31 December 2023. The Committee drafted an explanatory report for the Board of Directors and recommended that the Board approves the Financial Statements. In this report, the Committee explained to the Board how the mandatory audit contributed to the integrity of financial reporting and what the role of the Committee was in this process. In this context, the Committee evaluated and concluded that the annual financial report, along with the annual financial statements and the annual management report of the Company, reflect in a true, fair, balanced and understandable manner the evolution, performance and position of the Company, as well as of the companies included in the consolidation, and provide the required information to the shareholders. The Committee also informed the Board that the external auditors have contributed substantially to the integrity of the Financial Statements with their experience and independent assurance that the financial statements reasonably present, in all material aspects, the financial position of the Company and the Group as at 31st December 2023, their financial performance and their cash flow for the year ended on that date.

External (Statutory) Auditors

Appointment of the external auditors

The Committee has primary responsibility for the appointment of the key audit partner (external auditor). This includes negotiating the fee and scope of the audit, initiating a tender process, expressing an opinion regarding the appointment of an engagement partner and making formal recommendations to the Board on the appointment, reappointment and removal of the external auditors.

In April 2023, the Committee, after assessing the work of Grant Thornton, which is the Company's external auditor, and taking into account, inter alia, the opinion of the Finance Division, decided to propose to the Board of Directors the reappointment of the audit firm Grant Thornton as external auditor for the fiscal year 2023.

In parallel, the Committee conducted a tender for the selection of a new external auditor, in the context of the implementation of Regulation (EU) No 537/2014 of the European Parliament and of the Council of 16 April 2014 and the relevant transitional provisions of article 52 of Law 4449/2017 regarding the specific requirements for the statutory audit of public-interest entities. In November 2023, the tender for the nomination of new candidates for the audit of the company's individual and consolidated financial statements for the financial year 01.01.2024-31.12.2024 was completed. In particular, the Committee, after holding individual meetings with each of the candidate auditing companies and, taking into consideration the evaluation of their offers, from a technical and financial point of view, submitted its recommendation to the BoD.

Safeguarding independence and objectivity, and maintaining effectiveness

In its relationship with the external auditors, the Committee needs to ensure that they retain their independence and objectivity and are effective in performing the statutory audit. Both the Board and the external auditor have policies and procedures designed to protect the independence and objectivity of the external auditor.

The Committee considers the external auditors' annual declaration of independence and discusses with them threats, that may threaten their independence, as well as ways to ensure that these threats are addressed. The Committee examined whether the relationships, considering the views of the external auditor, of the Management and of the internal audit, as appropriate, appear to affect the auditor's independence and objectivity.

In 2023, the external auditors submitted to the Committee the declaration of their independence from the Company in accordance with the Code of Ethics for Professional Accountants of the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements related to the audit of the financial statements in Greece.

Use of the external auditors for non-audit services

The Committee monitors the external auditors’ compliance with the provisions of Regulation (EU) No 537/2014, as in force, regarding the level of the total fees paid by the Company to them in proportion to the overall fee income of the external auditors or their overall fee income from audit services, as well as other related regulatory requirements, so that the external auditors’ independence and objectivity is not impaired by the amount of work provided to the Company

The Committee is responsible for approving non-audit services to the Group entities that are not prohibited by law. The Committee considers that the external auditors have significant knowledge of the Group’s business and of how accounting policies are applied. That means it is sometimes cost-efficient for them to provide non-audit services. There may also be confidentiality reasons that make the external auditors the preferred choice for a particular non audit assignment.

However, safeguarding the external auditors’ objectivity and independence is an overriding priority. For this reason, the Committee ensures that the provision of such services does not impair the external auditors’ independence or objectivity.

In the context of non-audit services, whose provision by the Statutory Auditor is not prohibited by law, the Committee should apply judgement on and assess the following:

- threats to independence and objectivity resulting from the provision of such services and any safeguards in place to eliminate or reduce these threats to a level where they would not compromise the auditors’ independence and objectivity,
- the nature of the non-audit services,
- whether the skills and experience of the audit firm make it the most suitable supplier of the non-audit services,

- the fees incurred, or to be incurred, for non-audit services both for individual services and in aggregate, relative to the audit fee, including special terms and conditions (for example contingent fee arrangements), and
- the criteria which govern the compensation of the individuals performing the audit.

During 2023, the Committee examined the non-audit services that were proposed to be performed by the external auditor for the Company or subsidiaries of the Group, where the Committee, after evaluating the nature of proposed services and receiving relevant clarifications, declarations and assurance from the external auditor, considered that they did not pose a threat to the external auditor's independence in accordance with the provisions of article 44 of Law 4449/2017 and article 5 of Regulation (EU) 537/2014. The relevant non-audit services concerned pre-agreed procedures (a) in relation to the preparation of the financial statements (including the Explanatory Notes), which would concern fund agreements, calculations, drafts, data collection, analysis and related processing thereof, with the note that these analysis would be based on an approved trial balance by each Management function, as well as that the adjustment entries would be subject to the approval of the each Management function of the subsidiaries, (b) in the context of supporting the respective Management function for the technical implementation of the conversion processes to IFRS, c) on the calculation of financial indicators of the Company and its subsidiaries in the context of their compliance with the requirements of loan agreements with the creditors (banks), (d) regarding the proper compilation of the company's financial statements per activity / sector, in accordance with the provisions of Law 4001/2001, (d) for the audit of the 2022 Remuneration Report of the Company, (e) on each Flash Report and Trading Update of the Company, (f) for the issuance of assurance reports in the context of the examination of the implementation of the financial scope of the Company's investment plans and its subsidiaries that have been subject to the provisions of Law 4399/2016, (g) on the financial data for the table "CONSTRUCTION EXPERIENCE AND COMPETENCE DATA" in the context of the Company's participation in public tenders, and (h) on the prospectus for a bond loan issued by the Company with public offering. The external auditors, during 2023, apart from the regular audit and the tax certificate report, provided non-audit consulting services for a total amount of €168 thousand, corresponding to 34.48% of the average audit fees received over the last three years.

Neither the work done, nor the fees payable of the assigned non audit services, compromised the independence or objectivity of our external auditors.
